

Sealed Air (CRYOVAC brand) CRYOVAC AutoPouch 2045D datasheet

Form-fill-seal machine

AT A GLANCE Speed 28 packs/min · Bag length 200–510 mm · Pack volume 0.3–5 l

Maker: Sealed Air (CRYOVAC brand) · Verified: 2026-10-22

Vertical form-fill-seal machine for liquids and pumpable foods, hot or cold filled, with particulates up to 30 mm. Sealed Air rates it at up to 28 packs per minute.

Specifications

SPEC	VALUE
PERFORMANCE	
Speed	28 packs/min
Max filling temperature	96 °C
FORMAT	
Bag length	200–510 mm
Pack volume	0.3–5 l

Key features

- Squeeze roller technology controls pack weight and removes headspace
- Film is formed into a tube, filled continuously, sealed and separated into pouches
- Hot or cold filling up to 96 °C
- Pack volume 0.3 to 5 litres, pack length 200 to 510 mm
- Open hygienic design with corrosion-protected critical parts

Formats and options

Bag styles	pillow pouch, pouch with fitment
Films	barrier films, CRYOVAC VPP MonoPro recycle-ready films
Typical products	soups, sauces, dressings, condiments, pumpable foods with particulates up to 30 mm
Options	internal fitment insertion for controlled dispensing, 5-litre pack configuration (up to 15 packs per minute)
